Jun 2022 – Jan 2023
Full-Stack Developer | Kykeon Analytics | Barcelona | Remote

- **Built and maintained cloud-based data analytics dashboards**
- **Integrated Microsoft Graph APIs for advanced reporting features**
- **Improved DevOps pipelines and automated deployments on Azure**

Dec 2021 – Apr 2022
Frontend Developer | GLS eCom Lab GmbH | Berlin | On-site

- **Enhanced B2B e-commerce applications using modern web technologies (Angular.js, TypeScript, CSS, HTML)**
- **Worked closely with backend services deployed on Azure infrastructure**

Oct 2018 – Nov 2021
Software Engineer | Styla GmbH | Berlin | On-site

- **Developed headless e-commerce frontends leveraging Amazon Cloud services, web technologies and Distributed System**
- **Supported migration of legacy systems to modern cloud-based solutions**

Jan 2017 – Aug 2018
QA Engineer | Styla GmbH | Berlin | On-site

- **Led quality assurance processes, including automation testing, localization, and DevOps pipeline improvements**

Feb 2015 – Apr 2015
Intern | SoundCloud | Berlin | On-site

- **Supported development and QA activities for internal tools**

EDUCATION

2015 - 2018
Bachelor of Science (B.Sc.) in Computer Science | Technische Universität Berlin

2018 - 2019
Nanodegree in Front-End Web Development | Udacity

2011 - 2012
Electrical Engineering & Controlling Systems Bachelor | Aleppo University

SKILLS

- React, Next.js, TypeScript, Node.js, GraphQL, Jasmine, Cypress, Distributed Systems (Kafka)
- UI/ UX, Web Design
- Devops (Terraform, AWS, GCP)
- CI/CD pipeline & automation
- Automated Testing pipeline
- Container Technologies (Docker, Kubernetes)

- Fluent in both German and English
- Excellent communication & teamwork
- System architecture design
- Agile methodologies (Scrum, Kanban)
